FRESH ENGAGEMENT OF GOLD IN LARGE AMOUNTS FOR IMPORT.

Industrials Largely Dealt in and Scored Wide Fluctuations-Local Markets Continue Firm.

At New York, yesterday, money on call was very firm at 5@10 per cent; last loan, 6; closed at 5@6 per cent. Prime mercantile paper was nominally 71/2@81/2 per cent.

Sterling exchange was weak, with actual business in bankers' bills at \$4.81%@4.84 for demand and \$4.81@4.81% for sixty days; posted rates, \$4.81\4@4.83\4 and \$4.84\4@4.86; commercial bills, \$4.791/2.

Silver certificates, 64% 265c; har silver, 64%c. At London bar silver closed at 29%d per ounce.

Total sales of stocks were 219,423 shares, including the following: American Tobacco, 17,500; Atchison, 5,900; American Sugar, 56,100; Burlington, 11,000; Chicago Gas, 4,000; Louisville & Nashville, 8,100; Manhattan Consolidated, 10,500; Reading, 13,900; Rock

Candies—Stick, 6½c per lb; common mixed, 5½c per lb; G. A. R. mixed, 7c; Bainer stick, 10c; cream mixed, 8c; old-time mixed, 7½c.

Nuts—Soft-shelled almonds, 12@16c; English walnuts, 12c; Brazil nuts, 10c; filberts, 11c; peanuts, roasted, 6@7c; mixed nuts, 11@12c. Island, 3,500; St. Paul, 2,300; Tennessee Coal and Iron, 3,500; Union Pacific, 12,100; Southern railroad, 24,800; silver certificates,

The New York stock market was more active than usual yesterday, and the distribution of the dealings was also wider than of late. The industrials held the first place in point of activity, as a group, but a fair volume of transactions was also recorded in a number of the specialties and leading railway shares. Manipulation was again a distinct feature of the operations. The course of prices was irregular and the fluctuations wide in many instances. The market displayed decided strength at the outset on a variety of favorable influences. London prices came higher and the local sentiment was affected in addition by the publication of our international trade figures, which afforded a clear explanation for the bulk of the recent gold imports. The exchange market also developed further weakness, actual figures reaching the legitimate import basis, \$4.83\% for demand. Posted quotations were also reduced \( \frac{16}{16} \) to \( \frac{1}{16} \) to \( \f legitimate import basis, \$4.83\[squares] for demand. Posted quotations were also reduced \( \frac{1}{2} \) to \( \ preferred. The investment stocks were in fair request and some striking advances occurred in the inactive list. Lackawanna rose 3, Cotton Oil preferred 2½ and Metropolitan Traction 2 per cent. Tobacco moved in contrast to the general upward trend. and, after an initial rise of % per cent. to 76, slumped to 72 on realizing sales. A partial rally followed to 73%. The improvement was not retained, the stocks selling off to 71%c, the lowest of the day, in the late dealings, on a drive by the bears. Illinois Steel was also conspicuous for wide fluctuations. The stock rose 3% to 45, broke subsequently to 40%, and railied to 41%c. The bulls retained control of the market until the early afternoon and marked Sugar up to 109 and St. Paul to 71. Other shares displayed net gains of 161½ per cent. A feature of the frading was unusual activity in Union Pacific at an extreme gain of 1½ per cent. In the last hour an advance in call money rates in the board to 10 cents. per cent. In the last hour an advance in call money rates in the board to 10 per cent. precipitated heavy selling all around, which caused the loss of most of the early gains. Leading bankers deprecated reports that the rise in money was artificial, and predicted a sharp money was archicial, and pre-dicted a sharp money market for the next few weeks. Lank deposits are not in-creasing, owing to the indisposition of country financial institutions to return funds to New York, and there is practically no time money offering. Incidentally the banks have withdrawn almost entirely from the market for commercial paper. Ship-

To the Editor of the Indianapolis Journal: I have been figuring a little this morning. and the result of the figuring is the proof yet lower and lower levels, probably, What a startling object lesson for the American people! Even as the crusader candidate of the silver barons is passing over the country commending "cheap mon-ey" the very foundation is sinking from under him and his evil cause. A forty-nine-cent unit!

It is strange that here in the United States, in the closing days of the nine-teenth century, we should have to teach anew to a large part of our people the very primary lessons of finances. The "coyote candidate" is teaching every day Lard-Dec that you can make something out of nothing, and that you can make our people

prosperous by descending to a silver standard and calling 49 cents a dollar. In no country on the globe except ours is this evil lesson taught, for even Mexican and Japanese statesmen desire the gold standard and labor the globe except ours. ard and labor to attain to it. A forty-nine-cent dollar, a quicksand dollar, treacherous and unreliable "as a dicer's oath," this is the standard on which the Populist crowd ask our people to do business. In their insane hatred of gold they propose to withdraw the gold backing that now makes the silver doilar as good as the gold one. Yet visibly in the presence of the world the standard of value they set up shrinks and shrivels away. No business man with sense enough to go in when it rains would vote to put business on such a basis. It would be even worse than a return to the days of war time when the merchant had to consult his newspaper for the price of gold before he bought or sold. The joy with which the whole American people, except a few incorrigible fools, welcomed our return to specie payment only seventeer years ago is

Philadelphia Record. Among the conspicuous figures at a Republican rally in Augusta, Ga., on Friday night last was General Longstreet, who in the course of his address on the imprac-ticable character of the free-silver scheme made this sharp point: "Seventy per cent. of our cotton is sent to foreign markets, where the single gold standard prevails and regulates prices; and how can this wild project change the standard of value and force up the level of prices in Europe, and particularly in England?" The recent elec-tion demonstrated that Georgia needs a talking to as badly as any State in the Union; and if she will not listen to homely truths like this, which brings the issue home to every planter, she must, indeed, be hopelessly joined to her idols.

New York Mail and Express. There is nothing half-hearted or perfunctory in the support which the Indian-apells Sentinel is giving to Mr. Bryan. That able Popoeratic organ frankly admits that free coinage at the ratio of 16 to 1 will lead to silver monometallism, and supports it because it means a wholesome process of debt scaling. A grateful mother has just told of the almost miraculous cure of her grown-up son by the very simple means advised by an eminent physician. It was a case of debility and emaciation that nothing could seem to reach until the physician in question prescribed a remedy that he has found remarkably efficacious in treating weak invalids and delicate children. This was nothing more than the eating of an unlimited amount of marrow. Every day a large quantity of the bones containing marrow was ordered from the great markets. The only preparation necessary was to warm the marrow sufficiently to enable it to be easily spread on bread; then, with the addition of a little salt to render it more palatable, it was ready to do its work of regeneration. Under this treatment the patient mentioned gained during the first two weeks ten pounds of flesh and strength as a stream and stream and the content of the content of the content of the patient mentioned gained during the first two weeks ten pounds of flesh and strength as a stream and stream and stream as the content of t
